

The Language of the Star Beings (Dolphins & Whales)

By Jim PathFinder Ewing (Nvnehi Awatisgi)]

Note: Reprinted from the June 20, 2002, Healing The Earth/Ourselves newsletter, Vol. 2, No. 21.

Because I've received so many requests for this article, I've decided to include it on the webpage. If interested in a copy of the Star Alphabet, send me an e-mail.)

Last week, I said I would reveal the alphabet of the Star Beings (& Dolphins and Whales), as told by Sioux medicine man and Sundance Chief Golden Eagle. The alphabet is attached to this newsletter.

It was given by Golden Eagle, who some may know as Standing Elk. As Standing Elk, now Golden Eagle, he is a member of the Dakota Ihunktowan Band of South Dakota, a spiritual advisor, and one of the seven Sundance Chiefs of the Yankton Sioux. As Standing Elk, he has co-authored the book "MAKA WICAHPI WICOHAN, The Universal and Spiritual Laws of Creator." He lives in Wagner, S.D.

The tale he told at Crestone, Colo., at White Eagle Village, while I was on my Spirit Quest in May is really worth repeating. Golden Eagle is actually a "walk-in," though he didn't call it that. He told of a vision in which he was taken to his guides and they said his time was up. But, I haven't finished my work, he told them. Well, it's going to be difficult, they said. We can give you a new body, but it will be 20 years before you can be born into it and then you'll have to learn everything all over again. That was unacceptable to Standing Elk. We thought of that, they said. And they had another person standing with them. This is Golden Eagle, they said. He can take your place so you can go on living. And so, that's what they did. Standing Elk is now Golden Eagle, though he looks like the same man and has the same family and friends, etc. It was difficult to make the transition, he said. He had learn everything about Standing Elk to be Golden Eagle – that is, here, on this plane.

So, the person people have known as Standing Elk all his life is now Golden Eagle. And Golden Eagle revealed this alphabet at Crestone, Colo., Sunday, May 26, 2002, at the Crestone New Age Conference to me and about 50 other very eager people.

(See attached)

He calls it The 11:11 Teaching. Some people are very upset he is revealing this information. He has had death threats and various

sorceries thrown at him. A child of his died under mysterious circumstances (was murdered) and someone – I'm not sure what to call it, a socerer "hit man" – was sent to kill him. But that man died of a heart attack, leading everyone on the reservation to think that Golden Eagle had killed the man with sorcery, which Golden Eagle denies. I believe him.

I know that in our shamanism (and Reiki) teaching, it is very easy to construct a protective shield against negative thoughts/thoughtforms, etc. In Reiki, by using the mental/emotional signal, whoever sends a negative thought has Reiki healing energy bounced back, so it's only "good." I use it a lot (Especially in Wal-Mart). Other fields can be built that aren't so nice (some types of crystals are very effective at this). But I've learned that anytime you dabble in negative energies they always come back on you several times stronger, so it's best to stay with the good. I believe that Golden Eagle's allies were looking out for him and whoever was sent to attack him instead saw his own energy/fear and that's what killed him.

Sometimes, our allies, guides, angels, power animals, etc., do step in even when not specifically asked. Everyone has had an experience where, when told, other folks have said, "Gosh, your Guardian Angel must have been there!" So it is. So as ye sow so shall ye reap.

In any event, the teaching is very powerful and Golden Eagle said it was his wish that every human being wishing to Ascend should learn it. He was told by his guides that 144,000 souls now living would Ascend and he would meet every one of them, "So, hello!" he greeted us. I'm sure whoever takes this teaching to heart will meet Golden Eagle (perhaps in dream or vision if not incarnate) and be one of those souls. Some background. According to Golden Eagle/Standing Elk, 18 UFOs crashed in 1947. Most of us know about the one in Roswell, but there were others.

At that time, the United States was experimenting with radar and nuclear devices, which screwed up the Star Beings' navigational equipment, causing the crashes. The Star Beings were here to try to warn us not to develop atomic weapons. (As an aside, Drunvalo Melchizedek reports that it was nuclear fission the Star Beings were concerned about; nuclear fusion, which is the source of stars, is OK; but fission creates horrible imbalances in the Earth, creating "fire," which the Earth, as a balancing system will seek to dampen in various ways. Also, he says, the explosions created huge and horrible rips in

the universe, under the law of "so as above, so as below," that are and will affect humanity and all other beings for some time to come.

Melchizedek also tells about how at about the same time as the Star Beings were trying to warn us not to dabble in nuclear fission, Bell Laboratories was trying to find a way to send messages via microwaves and somehow chose the 7.23 centimeter band for their transmissions. This just happens to be the exact frequency upon which our 3-D universe operates; it also is the OM Hindu sound of the universe in meditation; it also is a ratio between every physical being in how it grows and develops, including the width between eyes, between nose and chin, etc. So, when the first microwave system went up about the United States, they turned it on and lo and behold heard all kinds of static. They thought it was their equipment and kept trying to tune it. Then, they learned that 7.23-cm is the "sound" of the universe, emitted by every object in space and everywhere else for that matter, at least in the 3rd Dimension. Rather than changing the bandwidth, they did something incredibly stupid: they upped the power, 50,000 times over what would normally be needed.

So, now, our world is bombarded with these artificial microwaves drowning out, blanking out or trampling over every natural emission in the U.S. and most of the world. It is something that we as a nation and a planet are still suffering from, he says. Perhaps the Star Beings were warning about this, too.)

Golden Eagle/Standing Elk said many people saw the symbols on the spacecraft, including those in Roswell and remembered them. The 18 space craft were from 10 different races of beings and all had the same symbols on them.

Golden Eagle and others decided that they should try to determine the alphabet of these Star Beings and 18 medicine men from across the U.S. assembled on his reservation for this purpose (along with the FBI and other government agencies which had picked up on what they wanted to do). Using children to help them, the medicine men pooled what they knew and through vision and help from Spirit came up with this alphabet. It has since proven effective in communicating both with Star Beings and with whales and dolphins (the oldest intelligence on the Earth); it is a universal language, found in the Akashic Records.

Golden Eagle/Standing Elk has several humorous stories to relate regarding this language, including one where he, his family and friends were on a charter boat out of Gulf Breeze and he was meditating on

the symbols to bring the dolphins, which did appear, and he looked up and a UFO appeared above the boat, too. He looked around and everyone else was “conked out.”

It seems that when a UFO appears, it often has the property of putting people to sleep. But, because he was meditating on the symbols, he did not go to sleep. So, there he is on a boat out in the ocean going full speed through big waves with everyone – including the captain – conked out asleep. He said he got his video camera and taped everybody, and the UFO, and the dolphins. But it's kinda jerky, he said, because the boat, rudderless, was bouncing through the waves at full speed. Another story.

After Golden Eagle/Standing Elk showed us the alphabet, Kiara Windrider, of Mt. Shasta, Calif., said that he had heard of the symbols some months before and knew one of them, so he tried it. Sure enough, meditating on the symbol brought the dolphins right to the ocean's edge. And they will communicate through symbols and “inner knowing” if you open up to them spiritually, he said.

You can go somewhere like Sea World, he said, and be in a crowd of hundreds and if you meditate on the symbols, they'll zero in on you. You will actually find yourself communicating with them. They practice, he said, what is known as “spherical thinking,” since they use both sides of their brains simultaneously, not like humans who have a left (logical, linear) brain they use most of the time and a right brain (intuitive) only used some of the time, mostly in nighttime dreaming. (To the dolphins we're always half asleep.)

Using this alphabet and meditating on the symbols will help you develop your spherical thinking, he said. This will aid in Ascension.

Kiara, by the way, is one of the kindest, gentlest, most beautiful human beings I think I have ever had the pleasure to meet. He is as honest as a human being can be and it comes through in speaking with him. He has just published a book, which I bought as they were delivered in Crestone with the ink still drying that I highly recommend: “Doorway To Eternity: A Guide To Planetary Ascension” by Kiara Windrider; Heaven On Earth Project; Mt. Shasta, CA 96067; e-mail: aaron@hoep.org; phone: 530-918-9264; website: www.hoep.org. The book costs \$22 and includes a CD for meditating.

One more thing. Golden Eagle/Standing Elk said there are Seven Arrows to Ascension. I'm unsure if you have to know all seven or if you

can follow one or more of them to Ascension, but he said everyone should learn Reiki. Reiki is essential for connecting with the Divine, he said. I'm not sure what some of these are, but I'm passing them on.

The Seven Arrows of Ascension:

1. Reiki
2. The 11:11 Teaching (which this is)
3. Whirling Rainbow
4. Way of the Tree of Life, Sacred language of the Ark, Light language
5. Morning Star (Jesus, Yellow Hand)
6. Way of Quetzlecoatl
7. Way of Melchizedek, Metatron

The alphabet is self-explanatory. The hard letters (the ones with the dots over them) are dolphin/whale sounds that I don't know what they mean. I guess they will become clear in time. Note that there is no letter "i." I asked Golden Eagle/Standing Elk about that. He just replied simply: "There is no letter 'I'." So be it. Now, the other symbols. There are 8 symbols for Universal Laws and 4 symbols for Spiritual Laws. Universal Laws are female and Spiritual Laws are male. Some of the symbols as I've drawn them are circled, some not. You circle them to activate them. Otherwise, they stand alone.

Note: Some of the (Lakota) words, I did not know, so I spelled them phonetically. My apologies to those who know Lakota.

Here they are:

Universal Law of Spiritual Freedom for All Guardian: Makomanee – Walking Bear This is Bear energy, helps open the chakras. Also guarded by Star Nation of the Clouds. The Ascended Master associated with it is Krishna.

Universal Law of Change Guardian is the butterfly; also miniweechoneon or water beings. The teaching is that in times of difficulty, go into your cocoon and you'll come out a butterfly and then you'll have the nectar of life. Water works with this spirit; keep your water ways clean; it reinvigorates life cycles "but, remember, if you think you're stuck, you're stuck." The Ascended Master is Boddhisatva.

Spiritual Law of Growth Firefly is the guardian. The fireflies say that at one time human beings were brighter than they are, and will be so again some day. Use this symbol to brighten your aura; sweat lodge is good for that. Another guardian is keowhatcheeon, Guardian of Mind (the little voice inside). It directs evolution toward spirit. The Ascended Master is St. Germaine.

Universal Law of Movement and Balance It is protected by the Whale Nations. As an aside, Golden Eagle/Standing Elk says that the whales are essentially extinct and it will take great power to save them; also he says virtually all the sacred sites and power places in the United States have been appropriated by the U.S. government because "they don't want people to pray." Or have spiritual power. But, he says, the Native American medicine men have gotten together "and we moved them all 3 degrees." The Christ Consciousness Grid is now in place and can be accessed from anywhere, also.

This law gives 7 gifts:

1. Gift of Song
2. Gift of Sight
3. Gift of Choice
4. Gift of Action (The gift of choice works with the gift of action, so make sure choice and action are done with prayer. Every thought, every word affects seven generations, so be careful what you say and do. Sacrifice your ego so every choice comes from the Source; you will become a better teacher.)
5. Gift of Creation
6. Gift of Sacrifice
8. Gift of Sacred Thought.

This symbol is associated with the number 7 and the Star Nation of the Pleides, composed of the 7 sisters: Blue woman, red woman, white woman, Divine Mother, Turtle Woman, Corn Woman and White Buffalo Calf Woman. The Ascended Master is Maitrea. Spiritual Law of Strength, Health and Happiness With this teaching, remember that the holy father walks on the right, the holy mother on the left, grandfather before and grandmother behind; above is the Great Mystery and below is the Mystery Mother. On the star level, the protector is Golden Robe. It works with the Golden Ray. When you walk with this law, miracles happen. It works on the law of one-ness. The protector is the Angel Michael.

Universal Law of Innocence, Truth and Family The protector is the Spider, Grandma Uchee; she spins the web of life, connects heart to heart, the web of love. The Star Messenger is Bigfoot. The duty is to remember life purpose, purify the mind. There are four ways to purify the mind:

1. Fast and pray at least one day on a mountain and wind will purify
2. Fast and pray at least one day in the desert and the dry and heat will purify
3. Fast and pray at least one day at water and the water of life will purify

4. Fast and pray at least one day in a cave or a pit and Mother Earth will purify. Mu, Lemuria and Atlantis was lost through the lack of remembrance. The guardian of this law is Buddha. Universal Law of Spiritual Protection of Family Buffalo works with the law, represents abundance; asks spiritual discernment through the heart; be responsible to your blood, nurture and honor them. The star is Morning Star; it will bring you into right relationship. Universal Law of Symmetry Eagle Nations protect; call upon eagles to lift spirits, observe the wakan (sacred) in all things; it's associated with Orion and the Masters of Egypt; protector: Blue Eyes, from Sirius. Spiritual Law of Equality Represents Two Trees. Allows us to stay healthy; sun works with this. The Sun loves everyone! Know also that Many Faces (clowns) say of this: "I'm not that mirror that you're not." Universal Law of Life Guardian is turtle. Archangel Gabriel. Guardian of the law is Quetzlcoatl. It awakens the lifeline to the Central Sun. Spiritual Law of Choice Associated with Corn Woman (also the Maid of Guadalupe); call upon Corn Woman to cleanse water, work with water, to heal. Life essence is water. Star family is Bright Light. (They move around in drummings, sweat lodge, make a loud "pop" when moving in and out through interdimensional travel). Guardian is Buddha of Truth.

Each one of these symbols can be seen as a doorway. I have also included the symbols of other universal aspects in the lower right hand corner, which are an amplification of this teaching.

Each can be seen as a doorway to spiritual growth when meditating on them.

They are:

Universal Law of Sound Vibrations: Protector: Star People, Dolphins, Whales; Intuition – otter; Judgment – rattlesnake; Karma – Stone People (Crystals); Nature – Melchizedek; Honoring Self and Others – Elk; Love – Jesus, Big Eye; Healing – Red Wing, Ladybug; Perception – Wind; Future Sight, Prophecy.

If you notice, when you combine the (feminine) Universal Law of Symmetry with the (masculine) Spiritual Law of Equality, combined they form The Medicine Wheel of Metatron. Golden Eagle/Standing Elk said many more things, but you will have to discover your own spiritual truths about these things. Aho.
